

Re-Imagine **Education**

Re-Imagine Education Survey

Re-Imagine Education is a bold initiative asking us to challenge our views of what education looks like today and what it could look like in the future.

The current strategic plan for education, *Saskatchewan Plan for Growth: Vision 2020 and Beyond*, is quickly coming to an end. It has outlined some important goals, but the time has come to begin redefining a vision for the evolution of public education in our province.

An online survey is now available at reimagineeducation.ca. This short 10-12 minute survey has been developed to gather feedback on the future of education from people across the province. Results from this survey, and the data collected from numerous community engagements, will be used to create a report that contains ten to twelve actionable recommendations and will be presented to the Government of Saskatchewan early next fall—to make education a priority with government and to advocate for the changes needed.
